

## Quality Parameters

To enhance and maintain the quality, the following parameters are considered and monitored at regular intervals

### **A. Curriculum design and development**

- Number of new courses offered.
- Subject & Learner Centered Curriculum
- Skill development courses
- Number of bridge courses offered

### **B. Teaching and learning**

- Adaptation of student-centric teaching methodologies such as experimental & participative learning methods
- Introduce the recent trends in the subject to the students by guest lecture
- ICT methods of teaching
- Continuous internal assessment
- Number of Workshops / Seminars are organized
- Smart class room & digital learning

### **C. Research and Development**

- Papers published by the faculty
- Papers presented by the faculty
- Workshops / seminars are attended by faculty / students

### **D. Best practice**

- Student counseling & Mentoring system
- Number of awareness programs are conducted
- Student's progression to higher studies
- Participation of students in sports & other hobby clubs
- Student's co-curricular/ extra-curricular activities.
- Student enrichment activities
